

LegalEase

Revolutionizing Legal Automation
with Generative AI

TEAM SWTID-2026-9754

Leader Madhesh R

Rahulkannan S • Roshini P • Gandhi S • Kanish N

Legal documents, without the legal drag.

MISSION

Make legal documentation accessible to everyone.

CORE VALUE

**Standardized contracts in seconds—
with fewer human errors.**

KEY INNOVATION

Custom NLP models create dynamic, tailored legal drafts.

From waiting days → to drafting now

Traditional legal work is priced for friction.

\$500–\$2,000

per contract consultation

3–7 days

to draft and review

Complex terminology excludes non-lawyers. Manual templates multiply avoidable mistakes.

Your answers become a ready-to-sign agreement.

GUIDED INPUT

What are you creating?
Which jurisdiction applies?
Who are the parties?

~~AI + NLP~~

COMPLIANT DRAFT

Smart clauses
Plain language
Local compliance
< 2 minutes

90% lower cost

One continuous pipeline. No hand-offs.

01 CHOOSE
Business • HR • Property • IP

02 DRAFT
Live preview + real-time editing

03 EXPORT
PDF • DOCX • Plain Text

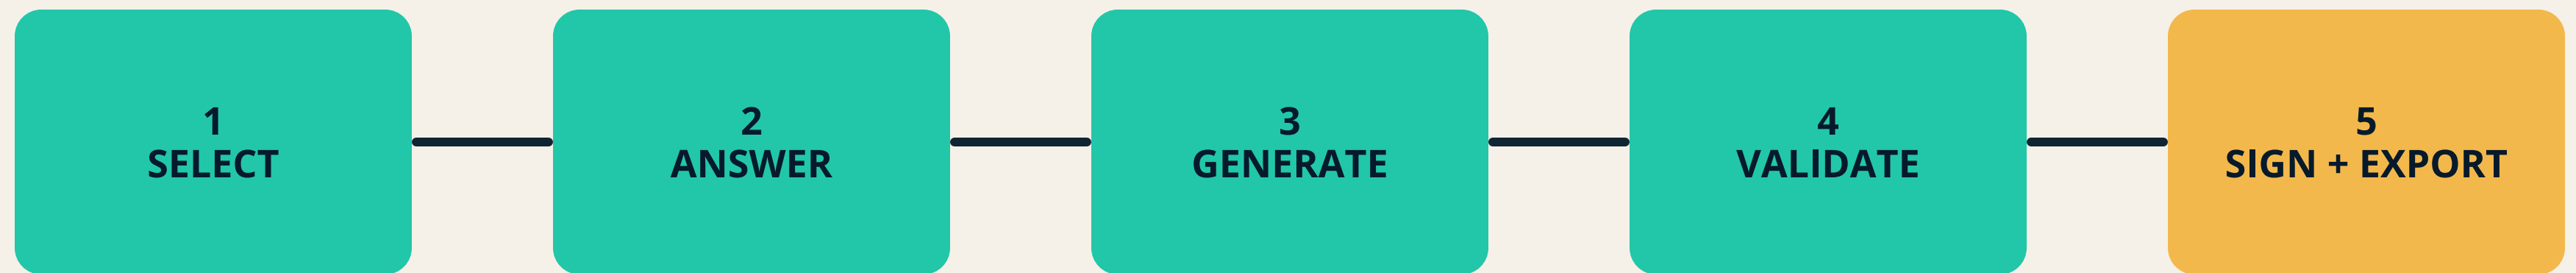

04 SIGN
Integrated e-signatures

A legal library built for real life.

CORPORATE & PERSONAL
NDAs - Service Agreements
Powers of Attorney Affidavits

DIGITAL & WEB
Employment Service Offer Letters
GDPR/CNDA-Compliant Policies

Five steps from intent to signature.

Templates + parameters → compliance check → preview → digital signature → download

Cloud-native by design. Modular by default.

CLIENT LAYER · Responsive React / Tailwind web app

API GATEWAY · Auth / routing / rate limiting

AI PROCESSING ENGINE · Custom NLP / prompt assembly

DATA + FILE STORAGE · Relational DB / secure cloud objects

A pragmatic stack, tuned for trustworthy output.

FRONTEND

React.js · HTML5 · CSS3
JavaScript · Tailwind

DOCUMENTS

PDFKit · ReportLab
DOCX Engine

AI / LLM

API models · fine-tuned open LLM
custom legal NLP

DATA

PostgreSQL · MongoDB
secure object storage

BACKEND

Python · FastAPI / Flask
or Node.js

Private by architecture. Compliant by workflow.

ZERO

data retained for model training

SSL/TLS in transit + AES-256 at rest

Role-Based Access Control (RBAC)

Local contract law validation

LegalEase changes the default.

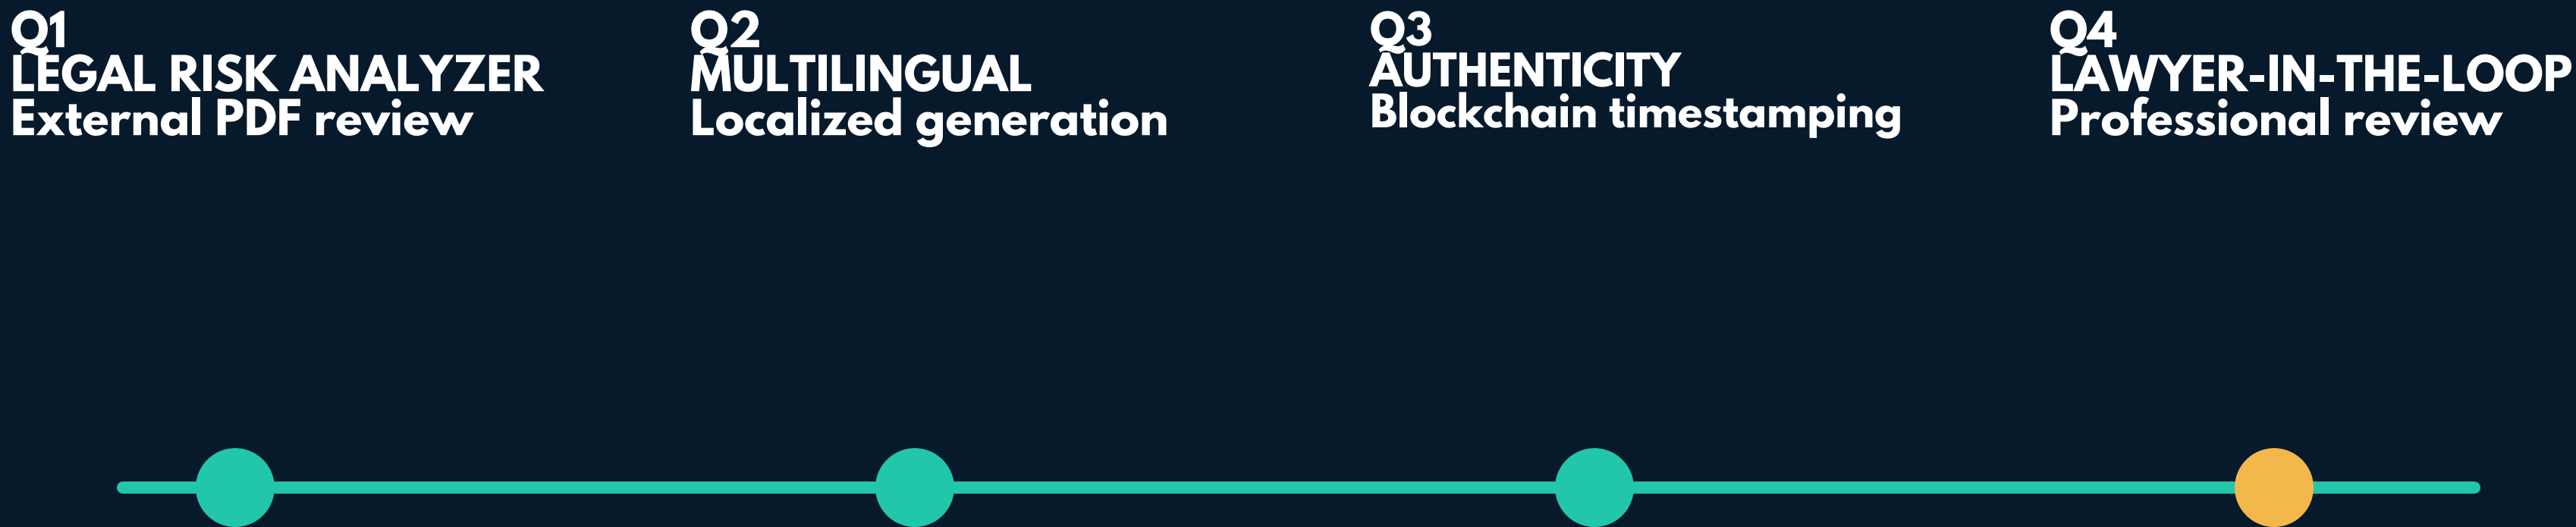

CAPABILITY	LEGALEASE	ATTORNEY	ONLINE TEMPLATE
GENERATION SPEED	< 2 minutes	Days	Minutes–hours
COST	Minimal	Very high	Low
CUSTOMIZATION	Dynamic AI	Manual	Static
AVAILABILITY	24 / 7	Limited	24 / 7
ERROR CHECKING	Automated	Manual	None

Built for the people doing the work.

STARTUP BUSINESSES
Employees, NDAs, nondiscrimination templates

PREVIOUS EMPLOYERS + AGENCIES
People, clients, affidavits, nonprotection

A year-long path from automation to trust.

Measured in time returned—and cost avoided.

95%

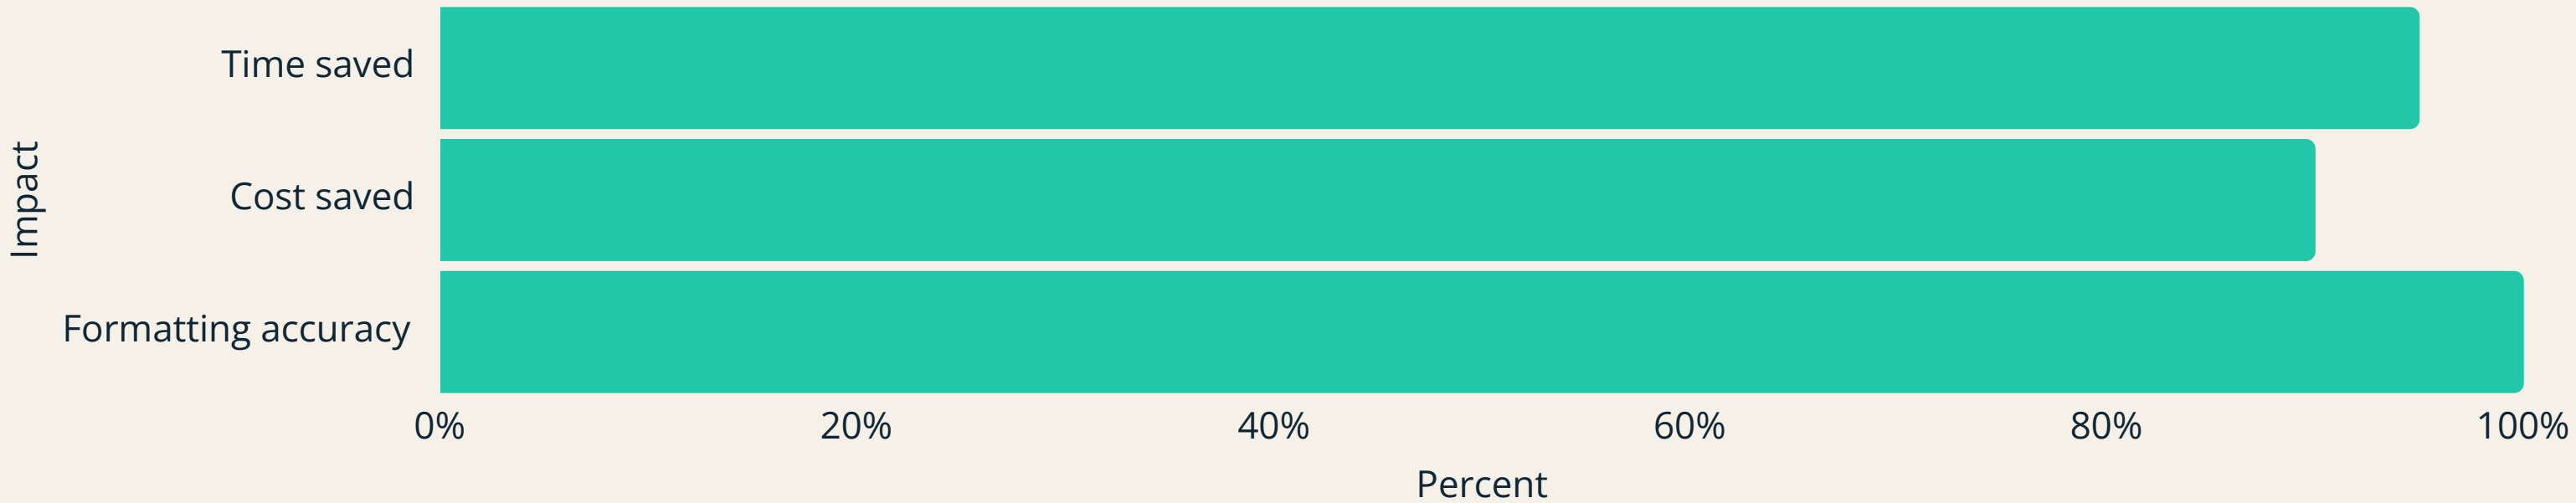

less document creation time

90%

lower drafting fees

0

formatting errors in standardized output

Fast. Accessible. Legally smarter.
